

Dear fire department of Bainbridge,

Hello my name is Malena and I have been a student of Kelly's homeschool resource for 2 years. Even though I've come to school for 2 I have gone to the farm for 8. I have missed the event of Thursday but I don't believe it is right to come in without warning. Many young kids or kids who have anxiety could or may have been mentally hurt from this big situation. We understand as a farm family that you are looking out for us and just want to help. I think that it's great you want to help us, but acting like this without warning is not what I would consider helpful. We have gotten legal help and technicals we are all allowed to be on the farm due to the fact it is Agricultural. I heard some of my friends were extremely upset and some were flipping you off, witch was not right but I can see why they would do that out of a fit of anger. All of our parents know where their kids are going and the fact that if their kids are not careful they may get hurt. The key word is careful, due to the fact it's 100% safe if the children are careful. I hope this is understandable and helpful for you because the farm is like my home to me. It means a lot to me actually and it's one of the places my anxiety calms down at and where I am safe and around so many people I love and care about and who love and care about me. Thank you for reading and please consider being a bit more polite about this situation.

Malena Galvez
